

Astronomy and Astrophysics Prerequisite Flowchart

NOTES:

* The Astronomy 1221 (Python) programming class can be substituted by taking either CSE 1222 (C++) or CSE 1223 (Java). These are offered year-round.

^ Many variations on the calculus sequence can be used in place of the standard sequence shown. Please consult with your academic advisor for other options. Additional math courses may be required for a placement other than L.

Certain Physics courses require a minimum grade of C+ to move on to the next course(s) in the sequence. These courses are: Physics 1251, 2300, and 2301.
